

The 17<sup>th</sup> Annual Harbor 2 Harbor came thru another year with better than expected results. This happened because a group of true H2H lovers wanted to keep H2H alive.

For seventeen years H2H started at Kahului Harbor but this year it was time to change the route to a more appealing scenic ocean view for a fast pace 10 mile run. The new route came with some obstacles that would require safety attention to the areas of South Kihei road. These areas were overcome with the assistance from the Maui Kihei Police Department and the use of orange safety cones from VIRR. Attention to detail really made this fast pace race a new favorite by both the Maui runners and off-island competitors. Along with this race being a big hit were the tech shirts for both men and women and the finisher medals for everyone. Runners Reward Tech Shirts were for sure a big hit.

Maui Kihei Police officer Brad Hickle provided the necessary traffic control along with Bryan Nalapao and Sergeant Derrick Delos Santos.

Co-Race Director Courtney Bollman helped with pre registration input and package preparation and route set-up. Lucy - Race day pick up helper. Cheryl Bouillon handled registration day at Moose's and race day pick up. Bram
